Sixty-fifth session
Item 140 of the provisional agenda*
Administrative and budgetary coordination of the United Nations with the specialized agencies and the International Atomic Energy Agency

Budgetary and financial situation of the organizations of the United Nations system

Note by the Secretary-General

Summary

The present note by the Secretary-General transmits to the General Assembly the statistical report of the United Nations System Chief Executives Board for Coordination on the budgetary and financial situation of the organizations of the United Nations system, the only system-wide report on these statistics. Until 1991, the report, in a slightly modified format, was produced by the Advisory Committee on Administrative and Budgetary Questions and was included in its annual reports on administrative and budgetary coordination of the United Nations with the specialized agencies and the International Atomic Energy Agency. Since 1991, six biennial reports have been produced under the auspices of the Administrative Committee on Coordination. The present, eleventh report, is the fifth to be presented by the United Nations System Chief Executives Board for Coordination (CEB). The format and content of the tables were slightly revised and improved for the previous report (A/63/185) on the basis of comments and suggestions from the Fifth Committee of the General Assembly during the presentation of the report in November 2006 (A/61/203 and Corr.1) and following extensive consultations within the CEB High-level Committee on Management. In particular, the tables on extrabudgetary resources were expanded to provide a complete picture of the resources available to the organizations of the United Nations system from all sources. The same structure has been followed for the tables in the present report.

All tables and data published in the present report, including some analysis of the figures presented, a number of charts on trends across recent years and snapshots on the distribution of extrabudgetary resources by country and by organization, are available on the website of the CEB secretariat (www.unsceb.org).

Statistical report of the United Nations System Chief Executives Board for Coordination on the budgetary and financial situation of the organizations of the United Nations system

1. The present report is the eleventh of its kind to be presented by the United Nations System Chief Executives Board for Coordination.

2. The tables in the report are grouped under the following five subject headings:

(a) Regular resources (table 1);

(b) Extrabudgetary resources (tables 2, 2 A and 2 B);

(c) Total expenditure (table 3);

(d) Assessed contributions (tables 4-7);

(e) Working capital funds (table 8).

A. Regular resources

Table 1. Approved regular budgets (1996-2011). Table 1 shows, for each of the organizations appearing in the report that have a regular budget and for the years from 1996 to 2011, the amounts of the estimated expenditure actually approved under regular budgets plus any approved supplementary estimates, net of staff assessment. In that context, regular budgets are broadly interpreted as regular resources, regardless of a corresponding assessment in the legal sense. Figures for biennial budgets are divided into two equal annual amounts.

B. Extrabudgetary resources

Table 2. Extrabudgetary resources from all sources (funds received 2002-2009, projected receipts 2010-2011): summary by organization. Table 2 covers contributions (actual and projected) provided outside regular budgets (for which see table 1). Extrabudgetary resources include trust funds, technical cooperation and other non-regular resources. It also contains the value of contributions in kind.

Table 2 A. Extrabudgetary resources: detail by organization and by donor (2002-2009). Table 2 A shows voluntary contributions in cash and in kind received by the same organizations as in table 2, in the past four bienniums.

Table 2 B. Extrabudgetary contributions from non-State donors (2002-2009). Table 2 B has been added since the previous version of the report to complement table 2 A and offer the complete picture of extrabudgetary resources available to the organizations of the United Nations system from all sources. Data is broken down into four categories:

Category A. European Commission

Category B. Total top five non-State donors: United Nations system organizations, World Bank, the International Monetary Fund and development banks

Category C. Total top five non-State donors: other international organizations, non-governmental organizations, foundations, private companies, etc.

Category D. Total contributions from all other non-State donors (i.e. donors other than the European Commission or the top five donors in categories B and C above)

C. Total expenditure

Table 3. Total expenditure. Table 3 shows expenditure (2002-2009) against regular budget resources (table 1), and against extrabudgetary resources (table 2), including trust funds, technical cooperation and other non-regular resources. Also included is expenditure against resources in connection with which the organization is the executing or implementing agency. Expenditure in kind is indicated separately. Reported amounts are extracted from the audited financial statements of the corresponding period.

D. Assessed contributions

Table 4. Assessed contributions (1996-2011). Table 4 shows the total assessments payable by members of organizations under approved regular budgets. Assessed contributions relating to extrabudgetary activities, such as certain peacekeeping operations of the United Nations, are not included.

Table 5. Percentage assessments (2010-2011). Table 5 shows, for each of the members of the organizations listed in table 4, the percentage amounts of the assessed contributions payable under approved regular budgets in 2010 and 2011.

Table 6. Assessments voted and received (2008-2009). Table 6 shows, for each of the members of the organizations in the preceding tables, the assessments payable under approved regular budgets and the amounts collected in relation to current assessments and arrears in each of the years 2008 and 2009. It should be noted that in prior reports data were provided covering United Nations peacekeeping operations but these have now been removed from this table. Peacekeeping data may be found in the Secretariat's monthly reports on the status of contributions (in the ST/ADM/SER.B series of documents).

Table 7. Collection of assessed contributions (2008-2009). Table 7 shows, for each of the same organizations as in the preceding tables, the percentage of the current year's assessed contributions under approved regular budgets that was collected at 30 June and at 30 September of the two most recent years for which such data is available (2008 and 2009). The table also shows, by organization, the total amount of all assessed contributions under approved regular budgets that was outstanding at 30 September of the same two years.

E. Working capital funds

Table 8. Working capital funds. Table 8 shows, for each of the same organizations as in the preceding tables, the level of working capital funds in relation to the level of approved regular budget estimates for the period 2010-2011.

3. The footnotes accompanying the tables in several cases clarify individual figures and provide general explanations relevant to the scope and interpretation of the data presented.

[a] This table shows the amounts of the estimated expenditure actually approved under regular budgets plus any approved supplementary estimates, net of staff assessment. No adjustments are made in the figures. In this context, the term "regular budget" is broadly interpreted as "regular resources" regardless of a corresponding "assessment" in the legal sense. Where the estimates approved make provision for undistributed reserve, the amount is excluded from the figures, so that the comparisons relate to effective working budgets. Estimated expenditure for the support of extrabudgetary activities is included where and to the extent that it is integrated into the regular budget. Estimated budgetary reimbursements to accounts drawn upon to finance expenditure under the budget or supplementary authorizations are reported in the period of reimbursement. Figures for biennial budgets are divided into two equal annual amounts (unless specified by year); supplementary estimates are reported according to the years to which they relate.

[b] Where budgets are denominated in a currency other than the US$, the amounts reported are translated into the dollar at the United Nations operational rate of exchange (UNROE) at the end of each year, except for the 1996 and 1997 figures, which have been translated at the December 1997 rate. Exceptions were made in the following cases, where exchange rates as reported in the financial statements were used:

[c] CTBTO's budget is approved annually, therefore the figure provided for the year 2011 refers to the draft 2011 budget available in June 2010.

[d] "Calculated at the following Austrian schilling-US$ exchange rates (euro-US$ exchange rates for 2002-2009) under the split appropriation and assessment system introduced in 1986: 1996-2001 — ATS 12.70; 2002-2005 — euro 0.9229; 2006-2009 — euro 1.00. Subject to variation according to operational exchange rates between these two currencies.

From 2006 onwards the amounts are calculated as follows: US$ Portion + EUR portion at average UNROE of the year = Budget in US$

US$ 58,688,000 + €212,112,000 x 1.2495 = US$ 323,721,944 (2006)

US$ 57,945,000 + €222,967,000 x 1.3651 = US$ 362,317,252 (2007)
US$ 57,892,894 + €234,947,488 x 1.4643 = US$ 401,926,501 (2008)
US$ 59,268,417 + €240,056,173 x 1.3893 = US$ 392,778,458 (2009)
US$ 59,941,716 + €255,645,145 x 1.2762 = US$ 386,196,050 (2010 estimate using average UNROE euro to dollar as at 1 June 2010)
US$ 62,409,827 + €266,112,159 x 1.2762 = US$ 402,022,164 (2011 estimate subject to GC approval, average UNROE as at 1 June 2010).

[e] IFAD's budget is approved annually, therefore no figure is provided for 2011. A significant part of the underlying expenditures is incurred in euro. These amounts are translated at the budget exchange rate set at the beginning of the year.
Figures provided include just the so called IFAD "support budget", including the administrative, monitoring/evaluation, audit and programme support costs of the organization. The remaining budget of IFAD is embedded in the so called "Programme of Work", containing the resources granted to the organizations implementing projects on the field. This repartition is inherent in the nature of IFAD as financial intermediary organization. For completeness, we report the financial amount of the IFAD "Programme of Work" in US$: 1996: 455,300,000; 1997: 450,000,000; 1998: 459,000,000; 1999: 472,770,000; 2000: 482,200,000; 2001: 393,700,000; 2002: 450,000,000; 2003: 450,000,000; 2004: 462,500,000; 2005: 500,000,000; 2006: 550,000,000; 2007: 605,000,000; 2008: 650,000,000. 2009: 715,000,000 2010: 800,000,000.

[f] The figures used in Table 1 are regular budget figures for assessment purposes only, they do not include other programme funds. These amounts are converted into US dollars using the budget assumption rate quoted above in (b) 2.

[g] Regular budgets refer to untied voluntary contributions to UNDP and exclude trust funds, cost sharing contributions or any other extrabudgetary contributions.

[h] Regular budget refers to the budget allocation to the Environment Fund (only voluntary) of UNEP approved by its Governing Council.

[i] Kyoto Protocol entered into force on 16.02.05; the part of the approved core budget relating to the Kyoto Protocol Interim Allocation was pro-rated for 10.5 months in 2005. The programme budget for 2006-2007 and for 2008-2009 is apportioned at 63.2 per cent for the Convention and at 36.8 per cent for the Kyoto Protocol.
Per the Headquarters Agreement the Government of Germany makes a annual fixed voluntary contribution of euro 766,938 (formerly DM 1,500,000) to the core budget of UNFCCC, except in 1996 because the secretariat was still located in Geneva at that time. The contribution is converted into US$ dollars at the UNROE prevailing at the date of deposit.
The UNFCCC core budget for 2010-2011 was approved in euro. It was converted into US dollars at the budget rate of EUR 1 = USD 1.43.

[j] UNFPA — regular budgets refer to untied voluntary contributions to UNFPA and exclude trust funds, cost sharing contributions or any other extrabudgetary contributions.

[k] Regular budget refers only to the budget allocation received by UN-Habitat from the United Nations Secretariat for implementing Section 15 of the work programme (Human Settlements Programme).

[l] Regular budgets refer to the use of regular resources plus additional resources to the biennial support budget approved by the Executive Board. Thus, they exclude the use of other resources for programmes and trust funds.

[m] Net of reimbursable expenditure.

[n] UNWTO (Tourism) introduced a single currency budget in euros in 2002-2003, which was converted at the January 2000 — September 2001 average rate of exchange of US$ 1 = euros 1.0976. Operational exchange rates for years 2004 onwards see in the note (b)(4).

[a] This table covers all contributions provided by state and non-state donors (including World Bank, European Commission, development banks, private companies, foundations, etc.) outside regular budgets (for which see table 1). Extrabudgetary resources include trust funds, technical cooperation, and all other non regular resources, including funding received through inter-organization arrangements. Extrabudgetary resources should also separately include the value of contributions in kind when these are separately recorded as income in organizations' financial statements. Contributions received in currencies other than United States dollars should be translated into dollars at the exchange rate judged most appropriate by the organizations concerned. When available meaningful projections for the biennium 2010-2011 are reported.

[b] UN data for 2002-2005 combines XB contributions to trust funds and to peace-keeping operations, excluding contributions for office space etc made under SOFA (Status of Forces Agreements). Peacekeeping-operations-related resources are record separately from other UN XB resources in its own line.
XB contributions to PK are relative to financial periods as follows: for 2006: 1 July 2005-30 June 2006; for 2007: 1 July 2006-30 June 2007; for 2008: 1 July 2007-30 June 2008; for 2009: 1 July 2008-30 June 2009.

[c] Currently, contributions in-kind are not recorded as income in the IAEA's account. Amounts were converted from euros into United States dollars at the prevailing end of year UNROE i.e. for 2008: US$ 1.4306 and for 2009: US$1.4430. Projected figure for 2010 is an actual income figure as of 31 March 2010, while income projection for 2011 cannot be made at this time.

[d] Contributions in kind are not included as income in ICAO's financial statements and are reported in the Notes to the Organization's Financial Statements. Reliable projections of extrabudgetary resources for 2010 and 2011 could not be made.

[e] Includes annual approved allocation from the Printing Fund towards IMO's Integrated Technical Co-operation Programme which is converted into US$ at the average budgeted rate.

[f] Amounts in CHF were converted to US$ based on December 2008 and December 2009 UNROE.

[g] Figures include only "UNDP Other resources" and *not* "UNDP regular resources".

[h] Includes an estimate for technical cooperation trust funds and counterpart contributions directly supporting UNEP's Programme of Work (POW). Multilateral Environmental Agreements (MEAs) and Conventions not included.

[i] The extrabudgetary resources include a fixed amount annually of €1,789,522 (formerly DM 3,500,000) as agreed under the Headquarters Agreement with the Government of Germany. This amount is converted into US$ at the UNROE prevailing on the date of deposit.
Amounts include all income received from all sources including interest and miscellaneous income but excludes indicative (assessed) contributions to the core budget. Previously, funding for conferences and other recoverable costs were excluded from the financial statements up to and until 2006; the figures shown have been adjusted to reflect the income under this source of funding.
Total income includes gross benefits accruing under the After Service Health Insurance benefits of USD 115k (2006), $139k (2007), $99k (2008), and $100k in 2009.

[j] Figures include only UNFPA "Other Resources" plus interest earned on those funds. It does not include UNFPA regular resources.

[k] Amounts include all earmarked and non-earmarked voluntary contributions received from Donor Countries and Other Organizations, including funding received through inter-organization arrangements.

[l] Includes Income to all the sources of funds: Annual Budget, Supplementary Budgets and Junior Professional Officers. Excludes negative currency adjustment.

[m] Figures include only Other Resources Income. Thus, they exclude Regular Resources Income and Trust Funds.

[n] Including funding received through inter-organization arrangements. 2002: US$10,543,600; 2003: US$ 7,744,600; 2004: US$ 7,544,100; 2005: US$ 6,429,500; 2006: US$ 6,916,200; 2007: US$ 10,364,100; 2008: US$ 1,847,000; 2009: US$ 957,700.

[o] The Extrabudgetary figures recorded in the sheet 2A represent the overall income recorded in 2008-2009. In 2008 WHO migrated to an ERP system and therefore the 2008 income figures are not complete as at 31-12-2008. Therefore the 31-12-2009 figures are representative of the whole biennium.

[p] The exchange rates used are those indicated in notes to Table 1.

(Footnotes to Table 2 A)

[a] This table covers all contributions provided by Member States outside regular budgets (for which see table 1). Extrabudgetary resources include trust funds, technical cooperation, and all other non regular resources. Extrabudgetary resources should also include the value of contributions in kind when these are recorded as income in organizations' financial statements. Contributions received in currencies other than United States dollars are translated into dollars at the exchange rate judged most appropriate by the organizations concerned.

[b] Figures include voluntary contributions to UNFICYP, UNIKOM and other peacekeeping operations.

[c] Currently, contributions in-kind are not recorded as income in the IAEA's account. Amounts were converted from euros into United States dollars at the prevailing end of year UNROE i.e. for 2008: US$ 1.4306 and for 2009: US$ 1.4430. Negative amounts represent unspent contributions returned to the Member States at the completion of the project.

[d] Includes Technical Co-operation Projects, AVSEC, IFFAS , USOAP and other Trust Funds.

[e] Includes technical cooperation trust funds and counterpart contributions.

[a] This table shows detailed information regarding extra-budgetary contributions received by UN system organizations from non-state donors. Requested data is broken down in four categories:

A) European Commission

B) 5 major non-state donors: UN system organizations, World Bank, IMF and Development Banks

C) 5 major non-state donors: other International Organizations, NGOs, foundations, private companies, etc.

D) Total contributions from all other non-state donors (i.e. donors other than the EC or the top 5 donors in CATEGORIES B and C above)

The sum of these four categories (A+B+C+D) gives the total of extrabudgetary resources received from non-state donors.

In the previous editions of this survey data shown in table 2B was presented in table 2A, section B.

(Footnotes to Table 3)

[a] This table shows expenditure against regular budget resources (table 1), as well as against extrabudgetary resources (table 2), which include trust funds, technical cooperation, and other non regular resources. Also included is expenditure incurred by the executing or implementing agency on behalf of funding organizations. Expenditure in-kind is indicated separately, as reported in the audited financial statements.
Amounts are indicated as appearing in the total expenditure line of the financial statements. Any departure from the financial statements is explained in notes."

[b] Peacekeeping operations-related expenditure is recorded separately from other UN expenditure. Peacekeeping financial periods are as follows: for 2002: 1 July 2001-30 June 2002; for 2003: 1 July 2002-30 June 2003; for 2004: 1 July 2003-30 June 2004; for 2005: 1 July 2004-30 June 2005; for 2006: 1 July 2005-30 June 2006; for 2007: 1 July 2006-30 June 2007; for 2008: 1 July 2007-30 June 2008; for 2009: 1 July 2008-30 June 2009. The expenditure under XB represents pledged voluntary contributions in-cash.

[c] The expenditure figures represent the amounts as per audited financial statements.
Effective 1 January 2006, the IAEA's functional currency for the Regular Budget is the euro. The 2006, 2007, 2008 and 2009 figures represent the IAEA's total expenditures expressed in US dollars at the monthly UNROE at the time the expenditures were incurred.
Extrabudgetary figures for 2006, 2007, 2008 and 2009 include the Technical Cooperation Fund.

[d] RB = Regular Programme actuals; XB = TC plus other Trust Funds and other resources.

[e] 2007-2009 figures are exclusive of the non-budgeted accrued expenses for end-of-service and post-retirement benefits; and prior period adjustments.

[f] Total expenditure relates to operational expenses i.e. excluding grants, HIPC and loan allowances, fair value and ASMC charges. Total expenditures relate to IFAD and all supplementary funds included within the Consolidated Financial Statements. RB relates to IFAD and includes Italian Government expenditures which are fully reimbursed, and multi-year budgetary expenditures as well as one-time costs, and investment related expenditures. These expenditures therefore exclude cash flows relating to the Programme of Work loans and grants.

[g] RB Expenditure is converted into US dollars using the actual annual average UNROE as follows; 2004 — 1.821, 2005 — 1.825, 2006 — 1.828, 2007 — 2.001, 2008 — 1.801, 2009 — 1.559

[h] The exchange rates used are those indicated in Table 1.

[i] RB = Regular resources; XB = RSS plus other resources and funds.

[j] Up to and until end of 2006, income and expenditure for conferences and other recoverable costs were not reflected on the face of the financial statements; the figures shown have been adjusted to reflect the expenditure on these activities.
Total expenditure includes the increase in the After Service liabilities of US$ 1,877k (2006), US$ 4,195k (2007), US$ 3,060k (2008), and US$ 3,656k (2009).

[k] RB expenditures are those incurred under the Biennial Support Budget which is approved by the Executive Board. It also includes other expenditures funded from regular resources.
XB includes all expenditures under "Other Resources" (co-financing, JP O Programme and Procurement Services).

[l] XB expenditures amounts correspond to audited financial statements while RB amounts have been extracted from IMIS records. RB amounts have been added to UN-Habitat financial statements as a note only in 2008.

[m] RB expenditures comprise those funded from regular resources. XB includes expenditures under other resources and excludes trust funds.

[n] RB and XB actual figures in euros converted to US$ at annual average UNROE applicable for the respective years.
2006: US$1 = €0.80158; 2007: US$ 1 = €0.73283; 2008: US$ 1 = €0.683; 2009: US$ 1 = €0.720583.

[o] UNODC's approved regular budget resources come from the United Nations Headquarters, New York, and are therefore not shown separately.

[p] Amounts are indicated as appearing in the total expenditure line of the financial statements.

[q] UNWTO introduced a single currency budget in euros in 2002-2003, which was converted at the January 2000-September 2001 average rate of exchange of US$ 1 = €1.0976. In: 2004 (€0.737); 2005 (€0.845); 2006(€0.760); 2007 (€0.686); 2008 (€0.699); 2009 (€0.693).

[a] This table shows the amounts of assessed contributions actually payable by Governments to finance approved regular budgets and any supplementary estimates. No other financing is reported. Where organizations have an undistributed reserve, the corresponding amount of contributions is excluded from the figures. The effects of the operation of provisions concerning tax equalization funds are not taken into account. Except where stated otherwise, assessments under budgets denominated in currencies other than United States dollars are translated into dollars at the UNROE at the end of each year, except for the 1996 and 1997 figures, which have been translated at the December 1997 rate. Differences between the amounts shown on this table and the total amounts shown on table 6 relate mainly to amounts actually assessed for tax equalization funds (which are included in table 6) and to contributions assessed on a member State that ceased to exist. In the case of IAEA, the difference relates to the valuation of Austrian shilling contributions in table 6.

[b] Provisional.

[c] CTBTO's budget is approved annually; therefore the 2011 contributions figure refers to the draft 2011 budget available in June 2010.

[d] Since 2004-2005, assessments are billed in US$ and euros under split assessment arrangements, and therefore the amount in the table is the consolidated amount.

[e] Contributions are calculated at the following Austrian schilling-US dollar exchange rates (euro-US dollar exchange rates for 2002-2009) under the split appropriation and assessment system introduced in 1986: 1996-2001 — ATS12.70; 2002-2005 — €0.9229; 2006-2010 — €1.00. The actual contribution of Member States is subject to variation according to operational exchange rates between these two currencies. 2011 data will become available only in September 2010.

[f] Assessments are required in both CAD and USD. Rate use to convert CAD to USD is 1.034.

[g] Assessed Contributions from ICGEB's Member States started in 1999.

[h] IFAD receives contributions from Member States under Replenishments, which each cover a 3-year period for its regular Programme of Work. Contributions recorded in 1996 and 97 reflect 1/3 each of 3rd replenishment regular contributions, those recorded in 1998-2000 include 1/3 each of the 4th replenishment, 2001-2003 include 1/3 each year of the 5th replenishment, 2004-2006 includes 1/3 each of the 6th replenishment, 2007-2009 includes 1/3 of the 7th Replenishment. Figures from 1996 to 2007 include total cash receipts, Promissory Notes and Receivables as at 31 December 2007. Promissory Notes and Receivables have been translated at the exchange rate prevailing at 31 December 2007. Cash receipts have been translated using the exchange rate prevailing on date of receipt. NB. Figures of year 2007-2009 have been adjusted in the CEB survey edition 2010 to reflect the contributions really received in form of cash or Promissory note.

[i] Contributions are payable in Swiss francs under the assessment system introduced with effect from 1990. The rates involved (Swiss francs to the US dollar) are: 1996-1997 — 1.16; 1998-1999; 1.46; 2000-2001 — 1.53; 2002-2003 — 1.77; 2004-2005 — 1.34; 2006-2007 — 1.25; 2008-2009 — 1.23.

[j] Contributions are payable in UK pounds and converted using the US dollar exchange rate for £1 as follows: 1996-1997 — 1.54; 1998-1999 — 1.61; 2000 — 1.67; 2001-2003 — 1.41; 2004-2005 — 1.67; 2006-2007 — 1.75; 2008-2009 — 1.97; 2010-2011 — 1.65.

[k] Contributions are payable in Swiss francs. The rates used are the same as under Table 1.

[l] The Regular Budget of the ITC, funded jointly and equally by the World Trade Organization (WTO) and the United Nations is approved in Swiss Francs. Each organization's share of the Regular Budget provided by the WTO and the United Nations would be assessed in accordance with the scale of assessments of each organization.

[m] Assessed Contribution refers to the budget allocation to the Environment Fund (only voluntary) of UNEP approved by its Governing Council.

[n] The portion of contributions payable in French francs/euros under the split-assessment system introduced in 1988 is calculated at the following French franc/euro-US dollar exchange rates: 1996-1999 — FF5.70; 2000-2001 — FF5.70/€0.869; 2002-2003 — €0.869; 2004-2005 — €0.869; 2006-2007 — €0.869; 2008-2009 — €0.869; 2010-2011 — €0.869.

[o] The estimated indicative (assessed) contributions for 2011 are at the budget rate of €1 = US$ 1.43 as the core budget was approved in euro.

[p] Contributions are calculated at the following Austrian shilling (ATS)-US dollar exchange rates under the split-assessment system (US$ and ATS) introduced in 1988 up to 2001 and the single currency in euros introduced in 2002: 1996 — ATS10.50; 1997 — ATS 12.00; 1998 — ATS 12.40; 1999 — ATS 12.90; 2000 — ATS14.8635; 2001 — ATS15.3642; 2002-2003 €1.123; 2004 — 2005 assessments are based on the average UNROE during the respective years. 2005 assessment includes supplementary assessment approved in December 2005 converted at December rate of exchange. 2006-2007: US$1 = average rate of €0.80158 (2006) and €0.73283 (2007) was applied. 2008-2009: average UN ROE was applied for 2008 (€0.683) and 2009 (€0.720583). Whereas for 2010-2011: January 2010 rate of €0.693 to US$1 was used. The 2010-2011 figures are subject to variation according to operational exchange rates between these two currencies.

[q] Tourism: The single currency in euros was introduced in 2002-2003; it was converted at the January 2000-September 2001 average rate of exchange of US$ 1 = €1.0976. In: 2004 (€0.737); 2005 (€0.845); 2006 (€0.760); 2007 (€0.686). 2008 (€0.699); 2009 (€0.693); 2010-2011 (€0.693). The current figure is subject to variation according to UNROE between the two currencies at the end of each year. UNWTO assessed contributions include UNWTO Associate Members.

[r] Contributions are payable in Swiss francs; converted to US dollars: 2004-2005 — 1.30; 2006-1.21; 2007 — 1.12; 2008 1.12; 2009 1.14; 2010 1.055.

[s] 2011 assessed contribution shows anticipated assessed contribution from members for 2011, this amount is subject to change as finally approved in December 2010. In addition, an early payment scheme provides Members with reduction in assessed contributions. These reductions are not included in the amounts provided in the table.

* The Regular Budget of the ITC, funded jointly and equally by the World Trade Organization (WTO) and the United Nations is approved in Swiss Francs. Each organization's share of the Regular Budget provided by the WTO and the United Nations would be assessed in accordance with the scale of assessments of each organization.

[a] This table shows the percentage of contribution by each Member State to the assessed budget of each organization. If the percentage assessment varies between the two years of a biennium this is indicated in a separate footnote.
A blank cell opposite the name of a country indicates that this is not a contributor or other entity to the organization under the scale of assessments."

[b] The rates shown are the scale rates for 2010 as approved by the General Conference in September 2009.

[c] Percentage relates to 2010 assessments.

[d] IFAD receives contributions from Member States under Replenishments, which each cover a 3-year period for its regular Programme of Work. Contributions recorded in 1996 and 97 reflect 1/3 each of 3rd replenishment regular contributions, those recorded in 1998-2000 include 1/3 each of the 4th replenishment, 2001-2003 include 1/3 each year of the 5th replenishment, 2004-2006 includes 1/3 each of the 6th replenishment, 2007-2009 includes 1/3 of the 7th Replenishment. Figures from 1996 to 2007 include total cash receipts, Promissory Notes and Receivables as at 31 December 2007. Promissory Notes and Receivables have been translated at the exchange rate prevailing at 31 December 2007. Cash receipts have been translated using the exchange rate prevailing on date of receipt.
NB. Figures of year 2007-2009 have been adjusted in the CEB survey edition 2010 to reflect the contributions really received in form of cash or Promissory note.

[e] The rates shown are the scale rates for 2011. Rates for 2010 are based on the UN triennial scale for 2007-09.

[f] Percentage relates to 2010 assessment.

[g] UNFCCC's core budget is apportioned at 63.2 per cent under the Convention and 36.8% under the Kyoto Protocol. For countries, which have become members during the year 2010, the scale of assessment has been pro-rated according to date of entry into force. The number of the member parties to the Kyoto Protocol is expected to rise further during the biennium. The European Union as an entity is a Party to UNFCCC in its own right.

[h] The schedules show the percentage assessments for the financial period 2010-2011.

[i] The scale of assessments for 2010 was different from that of 2011; that of 2010 was based on the UN Scale of Assessments approved by the UN General Assembly (UNGA) in December 2005, while the scale for 2011 was based on the UN Scale approved by UNGA in December 2009.

[j] Puerto Rico is an Associate Member of WHO, PAHO and UNWTO (Tourism). Hong Kong-China, Macao-China, Netherlands Antilles participate in WMO as Associate Members. Aruba, Hong Kong-China, Macao-China, Netherlands Antilles participate in UNWTO as Associate Members. Madeira and the Flemish Community of Belgium are also Associate Members. Cayman Islands, Aruba, Macao-China, Netherlands Antilles, British Virgin Islands, Tokelau, Faroe Islands are Associate Members of UNESCO. Faroe Islands, Hong Kong and Macao are the Associate Members of IMO.

[k] In accordance with regulation 3.8 of the Financial Regulations of the United Nations, States that are not Members of the United Nations but that participate in certain of its activities shall be called upon to contribute towards the expenses of the Organization.

[l] Following the declaration of independence of Montenegro in June 2006, Serbia and Montenegro are shown as independent Member States.

[m] This is WTO terminology for the territory referred to by the UN as Taiwan Province of China. Please also refer to the official announcement by WTO: http://www.wto.org/english/news_e/pres01_e/pr253_e.htm.

[a] This table shows assessments voted and received, by Member States, as of 31 December 2008 for year 2008 and as of 31 December 2009 for year 2009. Differences between the amounts shown on this table and the total amounts shown on table 4 relate mainly to amounts actually assessed for tax equalization funds (which are included in this table) and to contributions assessed on a member State that ceased to exist.

[b] A blank cell opposite the name of a country indicates that it is not a contributor to that organization under the scale of assessments.

[c] Puerto Rico is an Associate Member of WHO, PAHO and UNWTO (Tourism). Hong Kong-China, Macao-China, Netherlands Antilles participate in WMO as Associate Members. Aruba, Hong Kong-China, Macao-China, Netherlands Antilles participate in UNWTO as Associate Members. Madeira and the Flemish Community of Belgium are also Associate Members. Timor-Leste is a Member State of UNESCO. Aruba, British Virgin Islands, Cayman Islands, Macao-China, Netherlands Antilles and Tokelau are Associate Members of UNESCO. Faroe Islands is an Associate Member since 12 October 2009.

[d] Regular budget only. Data covering United Nations peacekeeping is to be found in the monthly reports on Status of Contributions (ST/ADM/SER.B) issued by the UN Secretariat.

[e] The assessment amounts shown are the assessments for the years 2008 and 2009 which were approved by the General Conference in September 2007 and 2008, respectively. Amounts were converted based on IAEA's accounts with the application of the end of year UNROE for the relevant year i.e. 2008: US$ 1.4306 and 2009: US$ 1.4430.

[f] Contributions in UK pounds are converted into US dollars using annual average UNROE for the relevant year i.e.
2008: £1.00=US$ 1.801; 2009: £1.00=US$ 1.559.

[g] The European Union as an entity is a Party to UNFCCC in its own right.

[h] The average annual UNROE has been used to convert the EUR to US$, i.e. 0.683 for 2008 and 0.720583 for 2009.

[i] Contributions are in euro. The rates of the US$ used are the same as under Table 1. 2008-2009 UNWTO assessments do not include UNWTO Affiliate Members.

[j] Contributions are in Swiss francs. The rates of the US dollars used are the same as under Table 1. Advance payments received as of end 2009 (thousands of CHF) for 2010 and following years: Angola 50, Australia 664, Bahamas 2, Bulgaria 89, Cameroon 42, Costa Rica 3, Czech Republic 133, Ecuador 1, Ghana 3, Honduras 3, Italy 173, Kazakhstan 11, Latvia 11, Morocco 6, Senegal 1, Serbia 22, Suriname 179.

[k] Converted from CHF to USD using the UNORE rates for Dec 08 and Dec 09.

[l] Difference between the amounts assessed in table 4 and table 6 are to new Members assessments a prompt payment incentive scheme.

[m] The Holy See is not a Member State of the United Nations. Its contributions as non-member States are treated as miscellaneous income.

[n] This is WTO terminology for the territory referred to by the UN as Taiwan Province of China. Please also refer to the official announcement by WTO: http://www.wto.org/english/news_e/pres01_e/pr253_e.htm.

[a] This table shows the percentage of current year contributions collected at 30 June and 30 September of each year, the percentage of 2010 contributions collected by 30 April 2010 and the total contributions outstanding at 30 September of each year.

[b] The actual contribution of Member States is subject to variation according to operational exchange rates between euros and United States dollars. Amounts were converted from euros into United States dollars at the prevailing end of year UNROE i.e. for 2008: US$ 1.4306 and for 2009: US$ 1.4430. Data in April 2010 column represents IAEA's actual data as of 31 March 2010.

[c] Cash received to 30 June/September over 1/3 of the 7th replenishment. Under the regulations governing IFAD's replenishments, member states generally make payments in 3 instalments but are permitted to enter into separate encashment and/or payment schedules for their contributions. It should be noted that member countries may also pay in a unique instalment. As a result the percentages shown here do not necessarily reflect the legal status of contributions. It should also be noted that IFAD fiscal year coincide with the solar year.

[d] Translated from euro into US$ at the UNROE for 31 December (2008 — 0.699/2009 & 2010 — 0.693). 2008-2010 UNWTO data on collection of assessed contributions does not include UNWTO Affiliate Members.

[e] Total of all contributions outstanding at 31 December of corresponding year.

[g] Translated into US dollars using annual average UNROE for the relevant year i.e. 2008: US$ 1.801; 2009: US$ 1.559.

[h] Assessed contributions outstanding for 2008 and 2009 include unpaid amounts by USA (US$ 101,125,750) and Yugoslavia (US$ 3,047,729).

[i] Same rates as under Table 1.

[j] Translated from Swiss francs into US$ at the UNROE September 2008 and 2009.

(Footnotes to Table 8)

[a] This table shows the level of working capital fund at the end of biennium 2008-09 and its percentage value in relation to the approved regular budget 2010-2011.

[b] Values as per Table 1.

[c] CTBTO's budget is approved annually; therefore the figure provided for the year 2011 refers to the draft budget. 2010 and 2011 budget figures are calculated using average rate of US$ 1 = €0.7821

[d] IAEA's Regular Budget and level of Working Capital Fund are approved annually in euro. The combined RB figure for 2010 and 2011 are estimates (the 2011 Budget Update is subject to approval of the General Conference in September 2010); the euro portions of the RB for 2010 and 2011 were converted into US dollars at the average UNROE as at June 2010 (€1 = US$ 1.2762). The level of WCF as at 31 December 2009 was converted to US$ using the average UNROE in 2009 (€1=US$ 1.3893).

[e] Figures are for 2010. Working Capital Fund balance is fixed by the ICAO Assembly at US$ 6 million.

[f] IFAD approves its administrative budget annually, therefore the figure relates to 2010 only.

[g] Working Capital is converted into US dollars at the average UNROE for 2009 i.e. 1.60. The regular budget figures are taken from Table 1 for 2010 and 2011, used for assessment purposes only and converted into US dollars at the budget assumption rate for 2010-2011: 1.65.

[h] The organization does not have a working capital fund.

[i] Represents the accumulated fund balance as at 31 December 2009 under the Unified Budget Workplan.

[j] Working Capital Funds = Total Assets (minus) Total Liabilities.

[k] UNEP UN Reg. Budget allocation for 2010-11 is US$ 14.3 mil. Figures provided here represent UNEP's voluntary Environment Fund only.

[l] The level of WCF for 2010-2011 was approved for US$ 30 million in October 2009.

[m] The level of working capital reserve is calculated based on the equivalent of one month of the annual budget (8.3 per cent) of the first year of the biennium. The new figure is approved as part of the budget approval process but is only reflected on the financial statements for both the first and second years of the biennium through an adjustment from reserves.

[n] Working Capital Funds = Total Regular Resource Assets (minus) Total Regular Resource Liabilities.

[o] Working Capital is equivalent of UN-Habitat's financial reserve, as per the 2009 Financial Statements note 2 (o).

[p] The approved level of Working Capital Fund is US$ 50,000,000.

[q] Working capital is total current assets minus total current liabilities, including all resources (regular and other). Regular budget refers to the use of regular resources plus additional resources to the biennial support budget approved by the Executive Board. They exclude the use of other resources for programmes. Therefore, the ratio working capital to approved regular budget is not applicable.

[r] Translated into US dollars at the UNROE for 31 December 2009 (US$ 1 = €0.693).
